

# Remote Neural Monitoring Satellite Terrorism & schizophrenia is FAKE (its not real)

## **Introduction**

Corrupt government and corporate elements are utilizing Remote Neural Monitoring Satellite technology also known as Satellite Terrorism to harass torture and terrorize individuals. This is being done illegally and criminally to individuals nationally and globally, and this criminal activity is going unpunished. In some instances these criminals are utilizing a Bogus, illegal so called "investigation" in attempt to coverup the crime. Once the Remote Neural Monitoring satellite technology is locked on the individual, this false, Bogus "investigation" is nothing more than repetitious harassment, torture and terrorism to the victim that last for years, with hopes of and objectives such as causing induced insanity, or hoping that the victim commits suicide, or having the victim jailed or institutionalized under false pretenses in attempt to discredit the victim. Targeted Victims should be aware that the definition of "paranoid schizophrenia" as scriptedly "amended", includes victims complaints and references to beliefs that someone's reading and controlling their mind or hearing voices, even though the truth is, current sophisticated Remote Neural Monitoring technology allows this and illegal Non Consensual Experimentation to involve the remote causation of all these "symptoms". Psych bibles such as the DSM-IV conveniently do not contain this "classified" information. This is premeditatively, insidiously designed so that psychiatrists and other

ignorant mental health employees can be used to discredit and silence victims by falsely merging real targeted victims with those who are suffering from mental conditions. Long term unemployment, isolation and other social problems also fit the psych profile of real schizophrenics, but again, most victims of technological crimes finish up in the same position and so can easily be mistakenly confused with those suffering from mental disorders.

## Something Very Important To Be Aware Of Regarding Remote Neural Monitoring Satellite Terrorism

Targeted victims should be aware that the definition of paranoid schizophrenia as "amended", includes victims references to voices and the belief that someone's reading/controlling their mind. Although, current technology allows this and illegal experiments to involve the remote causation of all these "symptoms". The psych bibles such as the DSM-IV do not contain that "classified" information. This is so that psychiatrists can be used to discredit victims by joining them with those who have a genuine condition. Long term unemployment, isolation and other social problems also fit the psych profile of schizophrenics but, again, most victims of technology crimes finish up in the same position and so can easily be confused with those having the disorder. The individuals responsible for operating the Remote Neural Monitoring technology are claiming to be operating out of "Cincinnati Ohio". These individuals are utilizing, pretexts, excuses and covers for the use of the Remote Neural Monitoring technology on myself such as (1.) "The victim has a disease and this is why the RNM technology is being utilized on the victim." and possibly (2.) "we are performing a government "investigation", both of which are both patently false lies. These are examples of known lies and deception that are being utilized by these perpetrators to cover this Illegal Criminal Electronic Racketeering and Exploitation Operation.

You say "Long term unemployment, isolation and other social problems also fit". Here I am with the same problem. I have been a victim of RNM since the summer of 2006. I left the US in March 2007 but they continued to target me. They even de-railed my job applications. In January 2008 I almost got a good job over here in my country (Istanbul, Turkey) but they interrupted and I didn't get that job. I had been unemployed from that day on till November 2009 until I found a job for minimum wage pay. The only reason they couldn't interfere is that the CEO of that place hired me on the spot. If he said ok we will think and call you he would have never hired me because they would call him and probably say something to him and convince him not to hire me. I am 33 years old now and thanks to them now I can not get a decent job because all the companies want is younger employees (they can give them low wage easily). 6 years of my life past under their control and I have accomplished nothing. But I am sure those doing this to me have accomplished alot during this time.
