

SYMPTOMS OF 'REMOTE' ELECTRONIC HARASSMENT AND MIND CONTROL TECHNOLOGY

Although I would boil down the overall symptoms of electronic harassment as being somewhat different for everyone there are a lots of very common elements that could probably be described as:

"Anything that you can think, say, feel, hear, see, smell or taste can be re-created in the same way via this electromagnetic weaponry. Basically, they try to control, torture and harass you with the range of symptoms they create. These could be anything from physical pains anywhere in the body, to mental fears, to any negative emotions, to torturous/ manipulating/ undesirable thoughts that are being transmitted. Anything to destroy your life, make you miserable and control you. Controlling your thoughts, life and actions are central alongside the torture/ harassment. Anything to 'neutralize' you and create a state of dissociation in and amongst the torture, fear and derailment they create is key to their programme"

However, I also found a long list of electronic harassment symptoms and mind control that includes any from the following list. THESE ARE ALL DONE REMOTELY VIA SATELLITE, CELL TOWERS ETC.

The name of the person who constructed the below list/s is Phillip Douglas Walker and here is a site showing his existence:

Directed Energy Weapon Targeting Symptom List:

- **Technological Mind control** – this is essentially the most important aspect to Electronic harassment and torture. **Directed energy weapons** are also used to certain parts of the body directly as part of the electronic harassment
- **Subliminal programming**
- **Remote neural monitoring (RNM)** - i.e. surveillance of my thoughts and emotions.
- **Voice to skull (V2K)** - (scientifically patented) Verbal abuse as part of this. Everything from insults, threats and intimidation to misinformation to take me off track. The microwave hearing effect is a **scientifically proven phenomenon** by Allan Frey 1961 and is now thought to have been used against the US diplomats in China and Cuba. See mainstream news coverage (one of many) here...<https://www.nytimes.com/2018/09/01/science/sonic-attack-cuba-microwave.html>
- **Voice of god weapon** as talked and proven by CIA whistle blower Dr Robert Duncan. This weapon will imitate whatever is in the reality of the victim. For example, for Christians it will pretend to be Jesus, for those into spirituality it will imitate angels, fairies or perhaps other elemental beings. For those who follow Islam it might pretend to be Allah and so on. It can also mimic your mental inner voice, or imitate what an individual may think is guidance from their own

soul, heart, the universe or god. Be aware. **I am not saying these spiritual things/ concepts do not exist, just do not be falsely manipulated!**

- Mental torment through many different ways
- Pains in all areas of my body through Directed energy weapons (microwave beams)
- Severe pulsating headaches
- Ringing, buzzing clicking in the ears. All corresponding to the scientifically proven Microwave auditory effect. There were similar symptoms to the US diplomats in Cuba and China who also complained of this remote harassment.
- Picture inserts into my brain that would seem to flash up into my mind (part of the mind control and creating suggestibility). I.e. they can put picture, images and movies into your mind as part of the mind control and programming. Pains, symptoms and sensations specifically directed to my organs at different times making me think I had illnesses with them. AKA Directed Energy Weapon Abuse.

- I was not able to think up everything, so I have taken about 5-10 symptoms I have had that I could not think up from [this TI page](#), 1 bullet point came from [this video](#).

Symptoms at different stages of the programme:

The symptoms change with time in and that they tend to get more severe as shown in the next link.

<http://satelliteterrorism3.blogspot.com/2010/12/dew-directed-energy-weapons.html>

I have listed this link as it gives a good analysis of the emotional, societal and spiritual symptoms (as opposed to just the physical and mental ones) that may appear in an individual's life. It is worth reading for better all-round understanding of the symptoms. The physical symptoms are listed two thirds of the way down this link too...
