

Targeted individuals are subjected to 24/7 surveillance, isolation from friends and family, organized stalking and harassment, destruction of property, depletion of finances and blacklisting from jobs.

Because of the covertness of these crimes, we are not able to speak freely about it without being labeled as “delusional”. These crimes however are very real.

There are over a million targeted individuals worldwide.

The number of people being targeted is increasing exponentially every day; you could be the next victim.

Please help us stop this now because once this happens to you, it will be hard to do anything about it while sick and tired and without the means to defend yourself.

The same people who are doing the targeting and torture are the same people who are polluting our air with

toxic aerosol spraying (chemtrails), polluting our water and food supply, and sending electromagnetic frequencies to every single person on this planet.

You are being affected by related crimes even if you are not aware of it.

If you experience frequency tinnitus (ringing in the ears) this is coming from the cell phone towers (microwave towers) and smart meters. These are connected to the smart grid network which is used to control every single person on this planet.

When the next-generation of mobile networks comes out (5G) everything will be much worse.

We must stop this now!

We should ban directed energy weapons because they are not in the best interest of public safety.

These covert weapons can cause fires; they can destroy anything, make you sick and even kill you.

In Maine there are laws that are supposed to protect us, but these laws are not being enforced.

Please contact your local, state, and federal representatives to ask for help in this matter. We need these laws enforced!

## STOP THE CRIME!

Help stop non-consensual  
human experimentation  
involving directed energy  
weapons and destruction of  
innocent people's lives

Targeted Individuals are people who  
are being used non-consensually for  
various "research" projects.

These research projects include  
nanotech, bio-tech, implanted devices,  
directed energy weapons  
(electromagnetic radiation), biological  
warfare, artificial intelligence, and  
mind control.

In addition to this, targeted individuals  
lives are destroyed in every way. This  
is to prevent them from seeking help.

These crimes are being perpetrated by  
members of secret covert harassment  
agencies paid for by our tax dollars.
