Interview yesterday between former CIA Agent, John Kiriakou and Dr

Len Ber, who has been diagnosed with Havana Syndrome. Len is one of the Medical Doctors on our Advisory Board. He is also one of the Plaintiffs in our lawsuit. He is a civilian with no ties to the intelligence agencies, never worked for the government, and yet has been diagnosed with Havana Syndrome by Dr Michael Hoffer.

Here is what our evidence shows:

If your name appears on the Terrorist Screening Database (TSDB), then you will receive microwave attacks and symptoms of Havana Syndrome. The TSDB is a government blacklist, not a Terror Watchlist. 97% of the people on the TSDB have no known ties to terrorism. The FBI has already admitted this under oath.

Please watch the interview and share your helpful comments with Len...
